

Ordering your Whole Genome Sequencing (WGS) www.Sequencing.com

Instructions: On the home page of www.Sequencing.com, in the right upper corner is a blue button labeled “Shop all kits”. Clicking on this will take you to 4 kit options (scroll down to view them). Kit 4, at the far right is called **Customize Your Bundle / “Build your own bundle”**. The most recent listed price for this kit is \$399. **Select this option.** Choose the applications “apps” that will evaluate your DNA sequence to identify genes that relate to the selectable topics listed.

Always Select These 2 Apps :

1) *Rare Diseases* (auto-checked for you) and 2) *Medication & Drug Responses*.

Eight Optional Apps:

If you do not have any specific medical condition that you want to evaluate, then we suggest you select these:

3) *Brain & Cognitive Health,*

4) *Autoimmune Disorders,*

5) *Cancer-risks & Prevention,*

6) *Nutritional & Metabolic Health,*

7) *Heart Health,*

8) *Reproductive & Hormone health,*

9) *Musculoskeletal Health* and

10) *Genome Data Summary* (Typically listed as the last selectable option)

- **Be careful.** If you click on more than 10 apps, your price will go up from \$399 to \$499. After your DNA sequencing is done, if you choose, you can add additional apps to scan your WGS from the “apps” Marketplace Store (typically about \$50 / app). ****You do not need to sign up for any long-term monitoring plans or additional features.***
